

VIPLOV MAHAJAN

Product Manager | B2B SaaS | Loyalty & Engagement Platforms

Delhi, India | +91 98104 44571 | mahajanviplov@gmail.com | linkedin.com/in/viplov-mahajan

PROFESSIONAL SUMMARY

Product-oriented Senior Programme Manager with 4+ years building and scaling B2B loyalty and engagement platforms across steel, cement, and FMCG for India's largest distributed networks. Owns the full product lifecycle — problem discovery, user research, solution design, roadmap execution, analytics, and go-to-market. Proven 0 → 1 builder with entrepreneurial experience launching and scaling ventures from scratch. Combines hands-on delivery with structured product thinking: JTBD, RICE prioritisation, AARRR funnel analysis, North Star Metrics, and cohort-based retention frameworks. Seeking a Product Management role in B2B SaaS, fintech, or consumer platforms.

CORE SKILLS

Product Management: Product Strategy · Roadmapping · PRD Writing · MVP Scoping · User Research · Stakeholder Management · Go-to-Market

Frameworks: JTBD · RICE Prioritisation · AARRR Funnel · North Star Metrics · First-Principles Thinking · 5 Whys · OKRs

Analytics & Data: Cohort Analysis · Funnel Analysis · A/B Testing · Retention Metrics (D7/D30) · KPI Design · Dashboarding

Domain Expertise: B2B Loyalty Platforms · Channel Engagement · Trade Marketing · Programme Architecture · Reward Systems · Distributor Networks

Tools: Figma · Jira · Notion · Excel/Sheets · SQL (basic) · n8n · Lovable · PowerPoint · Google Analytics

PROFESSIONAL EXPERIENCE

BI Worldwide (BIW) India | Delhi, India

Senior Manager – Client Success Jul 2025 – Present

- Lead client success for multiple enterprise B2B loyalty programmes across building materials and FMCG, managing channel networks of **2L+ partners** with direct accountability for retention, redemption, and engagement KPIs
- Redesigned loyalty programme for one of **India's top-5 cement companies**, repositioning the **female head of household as primary member** — mapped end-to-end user journey and step-by-step use cases to reflect actual household decision-making dynamics, achieving **89% activation within 6 months** of relaunch
- Conceptualised and pitched a **unified 3-track loyalty platform for a leading integrated steel conglomerate** covering dealer, mason/contractor, and architect segments — owning market research, competitive benchmarking, programme architecture, and a 21-slide client deck
- Identified engagement drop-offs through data analysis and redesigned programme mechanics (earning velocity, reward laddering, tier upgrades) to improve participation rate and reduce churn
- Partnered with product, tech, and ops teams to translate client requirements into platform features, prioritising backlog across multiple active deployments using business impact and feasibility scoring

Account Manager Dec 2023 – Jul 2025

- Managed end-to-end execution of B2B loyalty programmes for multiple clients, owning enrolment, reward fulfilment, engagement campaigns, and quarterly business reviews across distributed channel networks
- Designed and launched multiple programme interventions — growth bonuses, consistency rewards, and referral mechanics — driving measurable lifts in active participant rate and reward redemption velocity
- Built programme performance dashboards tracking activation rate, redemption rate, and earning velocity; presented monthly insights to client stakeholders to inform reinvestment decisions
- Coordinated cross-functional execution across ops, tech, and fulfilment teams, reducing reward turnaround time from **25 days to 21 days** for key clients

Elevatoz Loyalty | Gurugram, India

Account Manager | Nov 2022 – Dec 2023

- Diagnosed growth choke points through funnel and segment analysis; designed **differentiated campaign strategies across target segments** and launched a regional enrolment and activation initiative — driving **20% incremental user acquisition** that contributed **12% of client's annual sales within the same FY**
- Designed market entry strategy for a client entering the **influencer loyalty space** — built identification and onboarding framework that surfaced high-potential influencers across target sectors, directly driving high-value sales conversions in the entry phase
- Managed loyalty programme delivery across B2B and B2C clients, owning relationships, implementation, and execution from launch to scale
- Drove client retention through quarterly programme audits, identifying optimisation opportunities across mechanics, communication, and reward catalogue

Evolve Brands India | Gurugram, India

Deputy Program Manager | Apr 2022 – Nov 2022

- Led **onboarding experience revamp** for the loyalty app — identified friction points in the user journey through feedback analysis and redesigned the flow to improve activation, driving a **28% YOY increase in enrolment**
- Launched **2 new loyalty programmes** end-to-end, owning campaign setup, reward configuration, member communication workflows, and go-to-market coordination
- Collaborated with product and tech teams to identify operational bottlenecks and translate them into platform improvement requirements

Mahajan Ventures & Independent Consulting | Delhi/NCR

Entrepreneur & Consultant | 2017 – 2022

- Managed operations, vendor relationships, and client servicing for a family-run Tours & Travel business, handling end-to-end execution across bookings, logistics, and accounts
- Identified a market gap and conceptualised a **Notary services vertical from scratch**, owning licensing, client acquisition, and operations — scaling it to **₹80L in annual revenue over 3 years**
- Explored entrepreneurial ventures in aquaculture and poultry, managing procurement, vendor networks, and P&L independently
- Provided part-time B2B lead generation and business development support for an early-stage firm on a consulting basis

Channelplay Limited | Gurugram, India

Associate Program Manager | 2016 – Aug 2017

- Managed operations for sales training events for a leading consumer electronics brand across multiple cities, coordinating logistics, content delivery, and stakeholder communication
- Automated event booking and entry management using **Excel Macros**, reducing manual effort and improving accuracy in tracking across multiple city-level deployments

PRODUCT PROJECTS (SELF-INITIATED)

Zerodha Kite — Designing Alpha Assist for High-Intent Traders

- Designed an opt-in protected mode for active options traders to solve session interruption and context-recovery issues, mapping the trader journey using JTBD and 5 Whys to isolate failure points
- Scoped four feature components (Smart Resume, Action Confidence Bar, Compact Execution Workspace, AI Context Brief) within real-world constraints including SEBI compliance and MVP delivery scope
- Defined user stories, acceptance criteria, prototype walkthrough, and A/B pilot plan with KPIs covering resume time, rebuild reduction, and confidence score

Zomato — Engagement & Retention Strategy for Tier-1 Cities

- Built a product strategy to convert one-time and discount-driven users into habit-forming retained users, defining Monthly Retained Transacting Users (MRTU) as the north star metric with a supporting KPI tree
- Used funnel and cohort analysis to identify highest-leverage drop-off points; prioritised four investment areas: Delivery Reliability, Personalised Discovery, New User Habit Formation, and Checkout Optimisation
- Defined an experimentation roadmap with MVP tests covering time-of-day personalisation, smart reorder widgets, post-failure recovery, and onboarding journeys for first-time users

X (Twitter) — AARRR Funnel Analysis & Activation-Retention Roadmap

- Diagnosed the platform's biggest funnel drop-off as weak first-session relevance; designed three high-impact epics: Interest Graph Sprint, First Contribution Coach, and Signal-First Return Loop
- Prioritised opportunities using RICE and built a phased roadmap focused on reducing time-to-value and improving D7/D30 retention

Nourishly — 0 → 1 Meal Planning App for Indian Households

- Conceptualised a 0 → 1 consumer product reframing meal planning as a decision-fatigue problem rather than a recipe discovery problem; sized market using TAM/SAM/SOM
- Designed a pantry-aware, time-aware, diet-aware planning system with end-to-end UX flow including pantry check, plan generation, grocery list creation, and quick-commerce integration

VitaFit — Retention Strategy Through Habit Loop Design

- Diagnosed early churn as a habit-formation gap rather than a content gap; applied JTBD and behavioural signal analysis to design Smart Behavioural Nudges and a Gamified Fitness Quest System
- Built a 10-sprint implementation roadmap measured against WAU, workout frequency, D30 retention, and LTV

EDUCATION

Amity University, Noida | Bachelor of Business Studies – Business Design (BBS-BD)

2013 – 2016

Universal Public School, Delhi | Senior Secondary (XII)

ADDITIONAL

Tools & Automation: Actively exploring n8n workflow automation and Lovable-to-PowerPoint pipelines for product workflows

Product Portfolio: Active in PM learning communities; built portfolio of 6+ product case studies spanning B2B SaaS, consumer apps, and platform businesses

Languages: English (Professional) | Hindi (Native)
